DSL-604+				Does not support repeater mode		

Note: Some wireless network adapters (Clients) may not support communication through repeaters. Windows XP built-in Wireless Zero Configuration utility may not work with repeaters. Wireless adapters used in the table above can be substituted with an adapter from the same series (e.g. DWL-G630 with DWL-G510, DWL-G520+ with DWL-G650+).

WPA, WPA-PSK can not be used with repeaters (exception: DWL-G710).
