

Stay Ahead of the Bad Guys in Real Time, 24/7

Malicious Site

Check every connection to the Internet from every device, and block connections to bad websites—before your network is compromised.

Hide your Devices from Hackers

Advanced network controls let you secure your Router and protect all connected devices from outside network access.

Away Mode

Prevent selected devices on your network from connecting to the Internet while you are away from home.

IoT Anomaly and Botnet Detection

Detect abnormal Internet of Things (IoT) device behaviour, find anomalies in real time, and block suspicious connections.

Incredible Value, Priceless Protection

Enjoy free, advanced Internet protection with McAfee® Secure Home Platform, and McAfee® LiveSafe™. Give your family the best in Internet protection for years to come.

EXO

The Future is Here.

Better Wi-Fi is no longer enough.

Comprehensive Parental Controls Without the Complaints

Stop settling for just a handful of parental controls. Get a system of comprehensive controls that turn into a way of life with less complaining and more compliance. You're not enforcing the rules. It's the system that enforces them for you.

BLOCK AGE-INAPPROPRIATE CONTENT
Age-based profiles help you customise control over what your kids can access online.

CUSTOMISED PROFILES
Create content filters, device access controls, and Internet schedules personalised for every kid.

SET INTERNET SCHEDULES
Make way for family time, study time, and household chores with fixed no Wi-Fi times.

ACCESS UPON REQUEST
Let your kids request access to blocked sites, giving you total, flexible control over their web browsing.

PAUSE/ALLOW INTERNET
Every kid's Internet needs are unique. Now you can pause and allow Internet on an individual profile basis.

WHITELIST AND BLACKLIST
Allow or block access to specific website addresses.

UNLEASH YOUR MESH WITH WI-FI MESH

Get a ton of advanced features that turbocharge your whole home network with Wi-Fi Mesh.

With Mix and Match functionality, Auto Healing, Auto Channeling, Auto Configuration,

Auto Optimisation, and a Network Assistant Map, you'll finally achieve a truly seamless network at home that scales to your needs. It's mesh Wi-Fi that works for you. On your Terms. Automatically.

TRUE INTERNET SPEEDS WITHOUT THE GUESSWORK

Tired of Internet speeds that don't live up to your ISP's claims? EXO Smart Mesh Wi-Fi Routers' integrated Internet test lets you measure the true speed of your Router-to-ISP connection with the D-Link Wi-Fi app.

SPEEDTEST powered

EXO WORKS WITH THE GOOGLE ASSISTANT AND ALEXA

Whether you want to turn on or off your guest Wi-Fi network, check your network for vulnerabilities, or block unwanted devices, EXO lets you do it all, hands-free.

ALWAYS UP-TO-DATE

Firmware upgrades can be a pain, but with EXO Smart Mesh Wi-Fi Routers, they are completely automated. Updates are so smooth, you won't even notice them. EXO routers keep you updated with the best protection and latest features for compatibility with the Google Assistant and Alexa.

DUAL IMAGE FOR SMOOTHER UPDATES

Firmware upgrades can be a pain, but with EXO's dual image functionality, a recovery image is saved as a backup before an upgrade. So in the unlikely event an upgrade fails, the system has your pre-existing version of the configuration to fall back on. Get reliable, uninterrupted Wi-Fi all the time.

McAfee PROTECTED

Get Connected and Protected. With powerful McAfee protection, you get comprehensive, automatic defense for every connected device on your home network. Go online, without putting your privacy and security on the line.

Cybercriminals are Eyeing Your Smart Home

You need network security backed by McAfee that gives you automatic, end-to-end protection for every connected device on your home network. It's the smart way to stay ahead of the bad guys 24/7.

McAfee Protection Defends Your Network at the Router Level

Give your home network an extra layer with the AC2600 Wi-Fi Router Powered by McAfee. Stop hackers and malware at the Router-level, way before they can come close to your connected devices.

Get Complete McAfee protection for Your Network Whether at Home or On The Go

McAfee

Secure Home Platform

Smart Security for Your Home Network

With the power of McAfee Secure Home Platform, you can automatically protect all your connected home devices and safeguard your family's online privacy through a home Router with built-in McAfee protection.

McAfee

LiveSafe™

Smart Protection Even While On the Move

Protect your computers and mobile devices even while on the go with the award-winning McAfee LiveSafe™ Antivirus. It blocks viruses, malware, ransomware, spyware and unwanted programs, and includes multi-device protection to deter security threats on all your mobile devices.

McAfee Global Threat Intelligence

McAfee protection defends your network with McAfee Global Threat Intelligence (GTI)—an ever-expanding cybersecurity service that identifies and blocks emerging threats. With more than 25 years of threat data, and cloud-based machine learning that updates its threat database in real-time.

You get smart home defence that never sleeps.

- Ok Google, tell D-Link Wi-Fi to turn on guest Wi-Fi
- Ok Google, tell D-Link Wi-Fi to tell me my guest Wi-Fi credentials
- Ok Google, tell D-Link Wi-Fi to reboot my router
- Ok Google, tell D-Link Wi-Fi to upgrade my firmware

- "Alexa, ask D-Link Wi-Fi to enable my guest Wi-Fi"
- "Alexa, ask D-Link Wi-Fi what are my guest network credentials"
- "Alexa, ask D-Link Wi-Fi to reboot my router"
- "Alexa, upgrade my router"
